Daily Market Highlights

23 Aug: Global markets brace for hawkish Fed

US stock benchmarks closed lower; 10Y yield back above 3%

Dollar displayed absolute strength; euro dipped beneath parity

Oil fell modestly as Saudi warned of production cut

- US stocks sold off and treasury yields jumped overnight as investors brace for more hawkish remarks by Fed officials particularly that of the Fed chair Jerome Powell at the coming Jackson Hole Symposium. The Dow Jones fell 1.9%, the S&P 500 lost 2.1% and NASDAQ shed 2.6%.
- Treasuries bear-flattened as yields rose 1-9bps across the curve, led by shorter maturities. The yield on the benchmark 2Y UST advanced 7bps to 3.31%; the 10Y yield rose 4bps to 3.02%.
- The dollar strength extended to the fourth consecutive session alongside higher UST yields. The dollar index climbed 0.8% to 109.05. G10 currencies (except AUD) slumped against the greenback and notably the EUR slipped below parity to 0.9943 (-0.9%), its lowest level in nearly 20 years. CHF, GBP and CAD lost 0.5% while JPY fell 0.4%.
- Asian-ex-Japan currencies dipped as well early in the day with losses led by THB (-1.1%) and KRW (-1.0%). Offshore RMB fell 0.5% as Chinese banks cut rates. SGD weakened 0.5% as well while MYR traded 0.2% lower at 4.4860.
- Oil prices were relatively resilient despite the broad risk aversion; Brent fell modestly (-0.3%) to \$96.48/barrel while WTI held on to \$90 level (-0.6%) as Saudi Energy Minister warned that OPEC+ may be forced to cut production due to the disconnection between the physical and paper markets.
- Chinese banks cut the 1Y loan prime rate by 5bps to 3.65% while the 5Y loan prime rate was reduced by 15bps to 4.30%. The latter formed the basis of most home mortgage rates, indicating the intention to ease borrowers' burden.

US Chicago Fed National Activity Index posted positive reading:

- The Chicago Fed National Activity Index rebounded to +0.27 in July, from -0.25 in June, pointing to a pick-up in economic growth last month. The improvement reflects positive contribution from all four major indicators (production, sales, employment as well as personal consumption & housing).

Hong Kong's inflation rose slightly in July:

- Hong Kong's CPI inflation rose to 1.9% y/y in July (Jun: +1.8%) but missed the consensus forecast of 2.0%. The core inflation (excluding government's one-off relief measures) also advanced to 1.9% y/y (Jun: +1.8%), reflecting continued increases in food, energy-related items and clothing & footwear. A government spokesperson said that underlying inflation remained moderate in overall terms; the external price pressures are likely to remain notable but domestic cost pressures should continue to be mild.

Malaysia's foreign reserves at \$110.9b:
